

In order to assemble our group of young people, we are asking adults within various religious communities to nominate students, from grades fifth or sixth through 9th, that they feel have potential as storytellers as well as sufficient maturity to commit to our project.

We want to encourage persons nominating students to let parents know about the project and have them secure the parents' verbal permission for us to be given contact information.

The students will be asked to submit letters to us indicating their interest and willingness to commit to participation in the program. Please find the enclosed letter which can be given to the nominated students to elicit their letters to us.

We will read the students' letters with interest, and then we'll send them a letter welcoming them into the Children at the Well program.

A great big "Thank you" to you for helping us in this way to assemble our group for this year!! We hope you will be joining us for the performance and pot-luck dinner.
