Our listserv

Please consider bringing your gifts to our table by joining our listserv. The conversations are interesting. The volume is light.

The purposes of our listserv are:

- Share information, ideas, advice, and other resources to help each other accomplish our personal, organizational, and/or community goals with faith-based and interfaith storytelling.
- Encourage and inspire each other as we face the challenges of our chosen work.
- Safely examine difficult spiritual questions/issues and how story might be able to guide ourselves and others toward discovering answers.
- Develop relationships with tellers from different faith traditions in order to enrich our selves both personally and professionally.
- Jointly build and maintain an information clearinghouse of stories, books, recordings, and websites of interest to faith-based and interfaith tellers.
